## project: humane society

**HUMANE SOCIETY OF SAN ANTONIO, SAN ANTONIO**

...

**INSTALLER:** Mangold Roofing & Sheet Metal, San Antonio

**GENERAL CONTRACTOR:** Metropolitan Contracting, San Antonio

**ARCHITECT:** Alamo Architects, San Antonio

**PRODUCT:** Petersen Snap-Clad 1-3/4-inch standing seam panels (20,000 square feet)

**FINISH:** Galvalume Plus

**MATERIAL:** 24-gauge Galvalume

The Humane Society of San Antonio project called for an architectural panel with the capability of spanning purlins as well as a solid substrate, and the versatile Petersen Snap-Clad panels answered the call. The goal of those involved was to create a campus of individual buildings with smaller sunlit spaces surrounded by play yards where animals can get daily exercise or visit with potential adoptive families.
