TRYG'S RESTAURANT, MINNEAPOLIS

...

INSTALLER: Aldo, Inc., Minnetonka, Minn.

GENERAL CONTRACTOR: Zeman Construction, Golden Valley, Minn.

ARCHITECT: Shea, Inc., Minneapolis

PRODUCT: Una-Clad UC-7 Snap-on Architectural Series, convex radius, standing seam panels (2,200 square feet), and Una-Clad UC-7 Snap-On concave radius standing seam panels (2,000 square feet)

MATERIAL: 16-ounce Patriot Green by Revere Copper, and 16-ounce copper by Revere Copper

The architect wanted a distinctive look for the restaurant, and chose to incorporate a radius roof. Copper was selected for the interior radius roof to achieve the look of an upscale restaurant. In seeking a product for the exterior of the radius roof, the installer and architect were introduced to Revere's Patriot Green. Together with the mill finish copper, Patriot Green successfully creates the distinctive look the owner was looking for and brings a classic look to the restaurant.
