project:clinic

AEROMEDICAL CLINIC, EDWARDS AIR FORCE BASE, CALIF.

ROOFING INSTALLER: AC Dellovade West, Ontario, Calif.

GENERAL CONTRACTOR: Valenzuela Engineering, Santa Maria, Calif.

ARCHITECT: Carter & Burgess, Costa Mesa, Calif.

PRODUCT: MeTecno-Morin's SSR 18-inch standing seam panel (30,000 square feet)

FINISH: Redwood colored Duranar

MATERIAL: 24-gauge Zincalume-coated steel

Searching for low maintenance and the aesthetic ability to fit into the surroundings, MeTecno-Morin's SSR 18-inch panels were the solution. The project is located near airplane hangars and the main runway, so the curved design matches that of the adjacent hangars.

For more information on products from MeTecno-Morin, see page 42
